

ABDELRAHMAN AHMED

Software Engineer

+20 1554748720 • abdelrahmanahmed6335@gmail.com • [LinkedIn](#) | [GitHub](#) • El-Sheikh-Zayed, Egypt

Summary

Driven and enthusiastic software developer with a solid foundation in front-end development and programming. Proficient in C++, C#, C, Python, HTML, CSS, SQL, and familiar with the basics of Django. Eager to embrace new challenges and continuously expand technical skills through hands-on experience. Focused on delivering efficient, real-world solutions while maintaining a strong commitment to quality, growth, and improvement.

Education

Misr University for Science and Technology	Egypt
• Bachelor's degree in computer science	09/2022 - 06/2026
• Department: Computer Science (GPA: 3.68)	

Experience

Afrexim Bank	Cairo, Egypt
IT Support Intern	04/2023 - 08/2023
Afrexim Bank provides banking services focused on trade finance.	
• Resolved 50+ hardware/software issues monthly, reducing downtime by 20%.	
• Helped maintain IT inventory for over 200 devices, optimizing asset tracking.	
• Streamlined onboarding for 15+ new employees, ensuring system readiness within 24 hours.	

Projects

Student Management System	GitHub
A student management system that manages student data and GPA calculations	
• Designed and built a C-based student management tool handling 100+ student records.	
• Implemented GPA calculator with 95% accuracy compared to manual results.	
• Enhanced performance by 30% using optimized memory structures.	
Compiler Project	GitHub
A compiler project to understand the basic workings of a compiler.	
• Developed a lexical analyzer parsing 1,000+ lines of C-Minus code with 98% accuracy.	
• Built symbol table generator reducing error rates by 40% during syntax analysis testing.	
• Simulated core compiler phases aiding team's understanding for 5+ peers in class.	
Image Encryption and Decryption	GitHub
Application for encrypting and decrypting images securely.	
• Built Python encryption app reducing unauthorized image access risk by 90%.	
• Implemented AES/XOR algorithms achieving 100% data recoverability in test cases.	
• Secured image files up to 5MB with less than 3 seconds encryption time.	

Skills

Technical Skills:

•C •C++ •C# •CSS •HTML •Basics of Django •Git •GitHub •Microsoft Office •Python •SQL •Visual Studio Code •Access •SQL Management Server

Soft Skills:

•Problem-Solving •Communication •Teamwork •Adaptability •Attention to Detail •Time Management

Languages

Arabic Native proficiency English B2 – Upper Intermediate German A2 – Elementary
